

## Why Kraft Kennedy?

- With singularly deep expertise, our team of certified *Project Management Professionals (PMPs)* is unlike any other. Our experience has been honed over decades of leadership positions at leading companies.
- Strictly vendor-neutral, we will choose the right tool for your environment.
- Our team of infrastructure, security, and desktop specialists is there to support the Project Management team and its clients when they need it.
- Kraft Kennedy depends on the Project Management team to oversee the high-quality infrastructure and desktop design projects we do for our clients. Clients familiar with Kraft Kennedy's standards know that our longtime belief in project management is instrumental in delivering excellence.

## PMOaaS

### Project Management Office as a Service

*PMOaaS is lean, efficient, and it's the future of project management. Certified experts will work with you to create a Project Management Office based on the size and complexity of your project portfolio. As your complete PMO, Kraft Kennedy provides governance, predictability, and quality assurance—on time and on budget.*

*Mergers*

*Office moves and buildouts*

*Data organization*

*OS deployment*

*Infrastructure upgrades*

*Application rollout*

## PMO Assessment Workshop (4-6 weeks)

PMOaaS begins with an in-depth appraisal of how well your current tools and methods support the successful completion of projects in a timely, cost-effective manner. With the goal of designing the ideal PMO for your business, Kraft Kennedy will focus on:

- Strategic drivers and goals of the current project portfolio
- Gaps and weaknesses of project methodology
- Expenditures and budgeting
- Organizational impact of project work
- Project intake and approval processes
- Roles of internal and consulting staff
- Assignment and management of resources
- Accountability for scope, deadlines, and budget
- Performance measures
- Software and processes

## Ongoing Project Execution and PMOaaS

Ongoing delivery of bespoke project management based on the framework and success metrics developed in the PMO Assessment Workshop.

- Project execution within desired timeframe and budget
- Ongoing governance and portfolio management
- Project management training
- Selection and implementation of PM solutions
- Close oversight of project timelines, budgets, and resources
- Regular meetings with project teams
- Documentation detailing progress, outstanding tasks
- Change management
- Documented performance metrics
- Just the right amount of communication between management, project teams, and users
